Innovation Accounting Solutions & Tax Consulting

A Jordanian accounting firm that combines certified professional expertise with hands-on knowledge of the local market—a financial partner, not just a service provider.

Accounting can be a challenge for companies of every size. We specialize in a comprehensive range of financial services — accounting, audit and tax consulting — designed around the specific needs of businesses across sectors.

With a team of seasoned professionals holding CMA, JCPA, and CIA credentials, we deliver high-quality, effective accounting services from one of Amman's leading firms.

> *If you want high-quality, effective accounting advice and services from one of Amman's leading firms – you are in the right place.*

02 MISSION & VISION

Our mission

Clear numbers for every business owner.

To give Jordanian companies — small ones first — accurate accounting, compliant tax files and reports they can actually read, so owners focus on growth rather than the books.

Our vision

The first firm a business owner thinks of.

To be Jordan's most trusted reference for accounting and tax advisory, with international professional standards and a local, client-close approach.

03 OUR VALUES

01
Accuracy
The right number in the right place — in every entry.

02
Commitment
Filing and reporting deadlines are a line we never cross.

03
Transparency
You always know what we are doing, why, and for how much.

04
Trust
Complete confidentiality for your financial data, no exceptions.

05
Growth
We keep learning and keep our tools and software current.

04 OUR JOURNEY

2024 — **Founded in Amman**
The firm opens bookkeeping and tax filing services for small businesses.

2024 — **Official registration**
Registered with the Companies Control Department under no. 71903 and licensed for financial consulting and certified audit.

2024 — **Services expand**
External audit, feasibility studies, management advisory, and accounting training join the offering.

2024 — **A team of twelve**
The team grows to 12 practicing accountants and passes 350 client reviews with an average of 4.7.

2025 — **Blog & careers portal**
Launch of the accounting blog and the careers.innovationjo.com portal.

Twelve integrated services under one roof.

01
Accounting & Financial Services
Bookkeeping with the latest accounting software for accurate, fast account management.

02
AI accountant
End-to-end automation of accounting workflows using the latest smart systems.

03
Audit & financial statement review
Audit and review that guarantee the accuracy and transparency of your financial data.

04
Income & sales tax file management
Preparing and organizing tax files for companies and individuals, accurately and on time.

05
Management & HR consulting
Effective management strategies and efficient team structuring.

06
Income & sales tax consulting
Specialized tax planning solutions aligned with local legislation.

07
Specialized accounting training
Advanced training programs designed to upskill accountants and finance teams.

08
Corporate debt collection
Recovering what you are owed from late-paying customers, professionally.

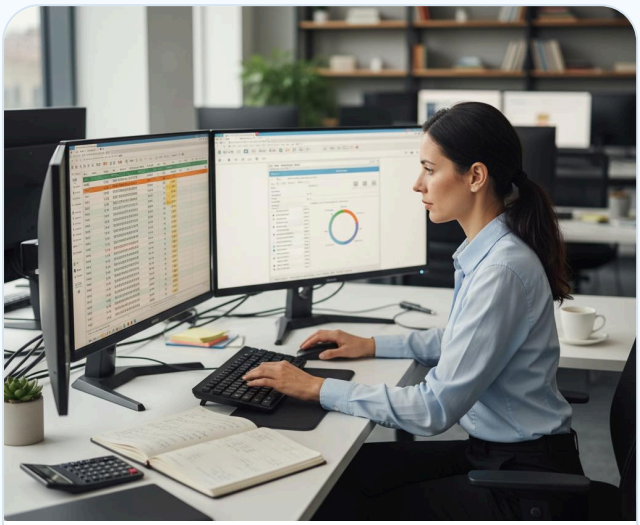

09
Feasibility studies
Comprehensive analysis of proposed ideas and projects before you invest.

10
Planning budgets
Accurate financial plans of every type, reflecting your goals and strategy.

11
Financial & economic strategy
Comprehensive plans to reach your medium- and long-term financial and economic goals.

12
Financial statement & cash-flow analysis
A close reading of all financial data and cash-flow statements to support your decisions.

Where we make the difference every month.

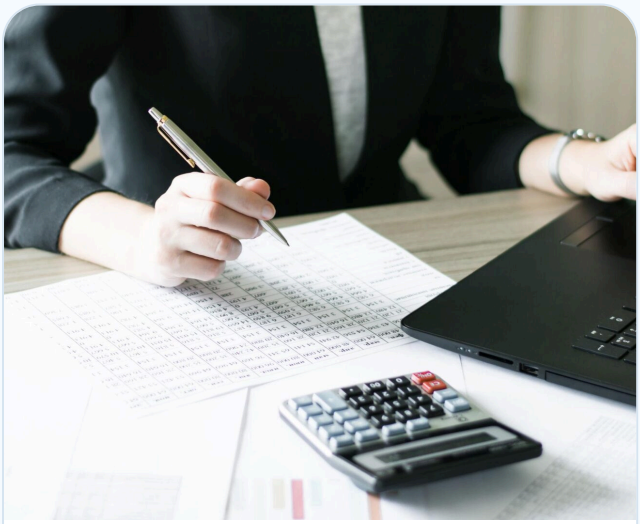

Bookkeeping: your books, updated every month, no exceptions.

A dedicated accountant records your transactions on modern cloud accounting software and hands you a monthly report you can understand without being an accountant.

Income & sales tax returns on time, zero penalties.

We take over the whole tax file — registration, periodic returns, correspondence with the Income & Sales Tax Department, and representation during audits.

Audit & review transparency that your bank and partner trust.

Certified external audit to international standards, giving your financial statements the credibility needed for financing, partnerships, and regulators.

AI accountant: automation that replaces repetitive manual work.

We connect your invoicing, bank, and point-of-sale systems to your accounting software, so transactions are posted automatically, and reports arrive in real time.

From first call to first filing – five clear steps.

01

FIRST STEP

Free consultation

An introductory session where we listen to your business and current challenges.

02

ASSESSMENT

Financial diagnosis

A quick review of your Journal Entries and tax files to identify gaps and priorities.

03

QUOTATION

Plan & package

A clear proposal covering scope, cost, and timelines — no surprises.

04

DELIVERY

Execution & monthly follow-up

A dedicated accountant maintains your books and checks in with you regularly.

05

COMPLIANCE

Reports & filings on time

Financial statements and tax returns ready ahead of their official deadlines.

A highly experienced team

Accountants holding recognized professional credentials and members of the AII.

Officially registered & licensed

A limited liability company registered with the Companies Control Department and licensed for financial consulting, commercial brokerage, and certified auditing.

Jordanian market knowledge

A working understanding of local tax legislation, its deadlines, and what business owners actually need.

Modern accounting software

High-quality, efficient accounting on cloud systems that give you a live view of your numbers.

09 INDUSTRIES WE SERVE

Retail & trade
Shops, showrooms, and wholesale.

Healthcare
Clinics, medical centers, and pharmacies.
